## DETAILED ACTION

### *Election/Restrictions*

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 6, 7 and 14-26, drawn to a mounting apparatus, classified in class 248, subclass 518.
- II. Claim 9-13, drawn to a pool shade, classified in class 135, subclass 16.

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as being able to secure any type of pole member. See MPEP § 806.05(d).

A telephone call was made to Michele Holden on Sep 01, 2005 (message left) to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
